PROFESSIONAL SUMMARY

6 years of hands-on experience as a versatile **backend developer** specializing in building **scalable, high-performance applications**. Proven expertise in **Node.js, MySQL, PostgreSQL, REST APIs, and system design.** Highly skilled in **Code Review, Task Planning, Team Mentoring, and Agile methodology** to drive high-quality feature delivery and optimize system performance.**Microservices Architecture**, **High Availability (HA)**, **Scalability Engineering**, **Asynchronous Programming,** Seeking a challenging role to leverage skills in backend development, including **PHP** and **Ruby on Rails** knowledge.

TECHNICAL SKILLS

Category	Skills
Backend	**Node.js** (Primary), **PHP**, **Ruby on Rails**, REST APIs, System Design, Payment Gateway Integration
Databases	**MySQL**, **PostgreSQL**, SQL Performance Optimization, Database Migration
Frontend	HTML, CSS, JavaScript, jQuery, React (Basics)
Tools & DevOps	Git, GitHub, GitLab, **CI/CD**, **Docker**, **Nginx**, **AWS (EC2, S3)**, Postman, Debugging & Optimization
Methodology	Agile/Scrum, Requirement Understanding, Code Review, Quality Assurance

---

PROFESSIONAL EXPERIENCE

Title/Position (Currently: Senior Backend Developer / Tech Lead)

Zapbuild | Mohali, Punjab

03/2021 – Present

- **Code Quality & Leadership:** Led **Code Review & Quality Assurance** processes, ensuring best coding practices, security, and maintainability across the team's codebase, significantly reducing production bugs.
- **System Design & Optimization:** Provided technical solutions and made architectural decisions to **optimize system performance** and ensure correct implementation aligned with project architecture and business logic.
- **Task Management & Mentoring:** Broke down complex project requirements into clear, manageable tasks for the team, **delegating based on strengths** and timelines. **Mentored junior engineers** on technical blockers and scalable development practices.
- **Hands-on Development:** Led the development of key, **scalable, high-performance features and modules** using **Node.js** for the transportation and logistics platform.
- **Stakeholder Communication:** Maintained clear communication with senior management and clients on progress, challenges, and timelines, ensuring **project alignment and transparency**.

Backend Developer
Logimetrix | Lucknow, Uttar Pradesh

07/2019 – 03/2021

- **Backend Development:** Developed and maintained core backend functionality using **Node.js**. Designed and implemented **RESTful APIs** for new features.
- **Performance Optimization:** Optimized existing backend modules and database interactions for better system performance and responsiveness.
- **Database Management:** Managed and optimized databases, including writing **efficient SQL queries** and managing migrations for PostgreSQL/MySQL.
- **Maintenance & Feature Rollout:** Identified and fixed bugs, improved system stability, and actively contributed new features within an **Agile/Scrum** environment.

EDUCATION

Bachelor of Computer Applications (BCA)
Babu Banarsi Das University | Lucknow, Uttar Pradesh

03/2016 – 03/2019

PROFESSIONAL ATTRIBUTES

- **Professional Skills:** Requirement Understanding & Solution Design, Task Distribution & Team Collaboration, Mentoring Junior Developers, Clear Communication & Documentation.

- **Strengths:** Strong Problem-Solving & Analytical Skills, Quick Learner, Reliable Team Player, Strong Debugging Skills, Ownership & Responsibility.
- **Languages:** Hindi (Native or Bilingual Proficiency), English (Professional Working Proficiency).
